

EMO TECH ERA

Era of Conscious Innovation, Leading with Heart in the Digital World

SCHOOL EMBLEM AND MOTTO

The School Emblem has four parts: God Alone, the Cross, the Torch and the Book. God Alone was the most favourite watchword of Montfort. His first love was for God, the most powerful and compassionate. He had Him always in his thoughts and he did everything in union with Him. The Cross or suffering for Montfort was always a blessing in disguise, so much so he would cry out, "No cross, what a cross!" The Torch represents the Light of Divine Truth which must guide us all through life. The Book stands for true Knowledge or Wisdom which has its source in God. The School Motto is "Rise and Shine!"

SCHOOL HISTORY

Lake Montfort School, Bengaluru, has the unique distinction of being the first Montfortian School in Karnataka, founded on principles that are rooted on the Vision and Mission Statement of our Province, namely to strive for Holistic Excellence. The school is established as a Beacon of Light and a guiding star for generations of students who will pass through its portal. Lake Montfort has been a 'School of Excellence' from its inception.

BENGALURU

PATRON OF THE SCHOOL

St. Louis Marie Grignion de Montfort the Patron Saint of our school was born in a town called MONTFORT in North Western France on 31 January 1673. From his very early childhood he led a virtuous life. He was service minded and showed an extraordinary love for the poor. He had to undergo many trials and tribulations due to this, but he came out of it all with faith, conviction and courage, trusting entirely in God, keeping with his watchword "God Alone". He admired and loved Mary the most saintly Mother of Jesus, and hence the addition of 'Marie' to his name. He became a priest and dedicated his life in the service of God and Humanity. He went from place to place preaching God's love and compassion and the need for us to be always at the service of others.

CALENDAR 2026

EMO TECH ERA : Era of Conscious Innovation, Leading with Heart in the Digital World

"The Connected Circle of Hearts" - Technology binds; humanity blooms.

"Mary is the safest, easiest, shortest and most perfect way of approaching Jesus" - St.Montfort

JANUARY 2026

January begins the year with a quiet yet powerful reminder of the power of togetherness. The School Community, anchored by the serenity of the Grotto, becomes a circle where every heart finds belonging. Here, prayers blend with hopes, laughter merges with learning and diverse voices flow into one shared rhythm. This month celebrates the invisible threads that weave students, teachers, families and mentors into a single, compassionate whole. The Grotto stands as a symbol of peace, a gentle keeper of dreams and resilience inviting every child to begin the year rooted in connection, gratitude and unity. It is in this sacred circle that our collective journey begins.

Even as digital tools help us connect, it is our humanity our kindness, care and shared presence that create true belonging. January reminds us to lead with heart, because no algorithm can replicate a community's love.

“The Strategic Leadership Hub” - Leadership rooted in insight.

“Real leadership is the art of seeing tomorrow and serving today.” - Sri Sri Ravi Shankar

These are the quiet powerhouses of direction spaces where ideas become blueprints and blueprints become futures. Within these walls, decisions are made not with authority alone, but by foresight, empathy and a steadfast devotion to each child's holistic growth. This is the Vision Chamber: a realm of purpose where leaders reflect, strategise and dream on behalf of the entire school. It represents the heartbeat of guidance, the compass of clarity and the promise of progress. February reminds us that leadership is not about titles; it is about stewardship, lighting pathways so that others may walk forward with confidence. Data may guide plans, but wisdom shapes direction. AI can sift through endless information, but it cannot care. Leadership fuelled by empathy turns vision into reality.

“The Smart Sanctuary of Minds” - Where learning evolves with every heartbeat.

“Education is the birth of inner power, not just knowledge.” - Swami Vivekananda

MARCH 2026

March blooms with the vibrant pulse of learning. The Classrooms are bright, warm and alive, becoming sanctuaries where young minds unfurl with wonder. Here, curiosity is not simply nurtured; it is celebrated. Every desk becomes a launchpad, every question a seed, every lesson a doorway to imagination. Teachers transform knowledge into magic and students transform that magic into possibility. This month pays tribute to the sacred exchange of teaching and learning, the gentle shaping of character, intellect and purpose. Within these Smart Sanctuaries, the future grows; one inspired thought at a time.

Smart boards and AI tools accelerate understanding, but the spark of curiosity, the warmth of encouragement and the power of inspiration flow from the human heart.

“Hallways of Hidden Intelligence” - Where every echo holds potential.

“The hallways have seen dreams being born; every step a chance to rise a little higher.” - Oprah Winfrey

APRIL 2026

April shifts the spotlight to the corridors, which are often overlooked. They are the arteries of the school that pulse with life and silent brilliance. These hallways witness small victories, whispered encouragements, inside jokes, brave first steps and the unspoken bonds that form between peers. Every footstep echoes ambition; every passing glance carries a story. They teach us that intelligence isn't confined to classrooms; sometimes it hides in shared laughter and thoughtful pauses.

When corridors fall silent during vacation, we are reminded that buildings alone cannot create the magic; children do. AI may simulate patterns, but it cannot replicate the warmth of a friendship or the quiet bravery of growing up together.

“The Voice of a New Dawn” - Where mornings rise with brilliance.

“Education should be about enhancing your horizons, about having a larger vision of life.” – Sadhguru

MAY 2026

May awakens with the rising chorus of young voices gathering under the open sky a space where a school breathes together. Here, the day begins not merely with discipline, but with harmony. Morning prayers rise like soft sunlight, knowledge exchange echoes with purpose and the united spirit of the students forms the heartbeat of the campus. It is in this vast, open ground where children learn their first lessons of unity, respect and hope. Every gathering becomes a reminder that a new dawn begins within us.

While technology amplifies the morning message and organises the day, it is the human heart that gives each moment its meaning and collective purpose.

“The Field of Future Champions” - Every jump, every sprint, transforms into momentum.
 “Play reveals the truth of a child's spirit—the freedom to be utterly alive.” - Osho

JUNE 2026

The Playground is where the pulse of childhood beats the loudest where laughter spills freely, fearless hearts sprint toward possibility and small victories shape lifelong character. Every match, race and playful chase becomes a lesson in resilience. This field moulds champions who rise after every stumble, celebrate teammates and discover strength through joyful motion. True champions aren't forged by skill alone; they emerge where the spirit of play meets the backbone of inner strength. Technology tracks our progress, but passion fuels our play.

“The Sentient Evocative Corner” - Where books breathe and knowledge responds.

“A book can open doors no key can unlock, for it awakens the inner light of understanding.” -- Paramahansa Yogananda

JULY 2026

The Library is a gentle, breathing sanctuary of thought where stories whisper wisdom and knowledge quietly illuminates the mind's inner sky. In this evocative corner, curiosity rests comfortably beside imagination and every book becomes a gateway to deeper understanding. Students walk in seeking answers but leave carrying richer perspectives and softer hearts.

Digital archives expand the reach of inquiry, while the heart anchors meaning in every discovery. Learning blossoms when technological access works hand-in-hand with emotional depth.

“The Guardian Wings of Care” - Compassion meets precision.

“Where care flows with love, even the smallest hurt finds peace.” - Mata Amritanandamayi (Amma)

The Infirmary and the counselling centre are cocoons where precision meets tenderness, a place where every child's fear is heard, every hurt is eased and every emotion is given safe shelter with skilled support and compassionate presence. It is where compassion outweighs worry and care becomes a universal language. From gentle reassurances to attentive healing, this wing reflects the school's promise: no child walks their journey alone.

Advanced tools ensure safety and accuracy, while the human touch restores comfort and trust. True care is born from the fusion of scientific support and heartfelt empathy.

“The Exploratorium” - Screen Glows. Ideas Grow.

“To question deeply is to step beyond the known; that is where true intelligence begins.” - Acharya Prashant

SEPTEMBER 2026

The Tech Labs ignite the electricity of wonder where circuits glow, experiments dance, codes awaken and questions spark bold and new ideas. These rooms vibrate with discovery, encouraging students to explore, tinker and unravel mysteries hidden in the fabric of science and technology. Here, curiosity becomes the engine of invention.

The labs remind us that the future thrives where innovation is fuelled not only by intelligence but by integrity and a profound sense of human purpose.

“The Pixel Studio of Possibilities” - Where imagination gets an infinite canvas.

“Creativity is the bridge between a child's curiosity and the world's possibilities.” - Nita Ambani

OCTOBER 2026

Our Creative Labs are the school's soulful ateliers, where art, music and dance weave stories beyond textbook. Here, every brushstroke becomes a heartbeat, every melody a whispered dream and every movement a poem etched in motion. In this vibrant studio, ideas spark like fireflies, illuminating corners of curiosity that technology helps sculpt and imagination liberates.

Innovation fuels artistry and emotion guides invention. Here, creativity becomes a superpower that no machine can clone and every child becomes an architect of wonder.

“MONTFORT SPECTATORIUM” - The Vision Stage of Unfolding Genius

“A stage becomes sacred when truth, courage and beauty walk upon it.” - Pope Francis

NOVEMBER 2026

The Montfort Auditorium is a destiny-shaping haven a radiant juncture where young performers step from quiet uncertainty into the glow of self-discovery. This enchanted pavilion refines budding potential into inspired presence, granting students a realm where expression carves its own path and assurance takes root. In this cradle of artistry, every beam of light heralds possibility.

The Spectatorium reminds us that when innovation guides the stage and compassion guides the performer, magic is not created; it is unleashed.

“The Living Classroom of Wonder” – Where growth is both seen and embraced.

“Look deep into nature, and then you will understand everything better.” — Albert Einstein

The School Garden is a living classroom where life blossoms in every form, from the tiniest seed to the tallest tree. Children explore, observe and marvel at nature’s rhythms, discovering lessons in patience and harmony. When they pause to truly look and listen, their observations unfold into moments of introspection, helping them to comprehend that nature teaches not only through observation, but also through one’s feelings.

Every bloom, every leaf, every breeze whispers wonder, resilience and a quiet wisdom that shapes their growing sense of self. AI can suggest planting schedules, but it cannot convey the delight of touching soil, feeling sunlight or marvelling at a butterfly. The garden reminds us that learning is lived, felt and experienced with heart and hands together.
